

MATERIAL AUTHENTICITY ASSESSMENT

MATERIAL AUTHENTICITY ASSURANCE		Y	Ν	NA	REFERENCE DOCUMENTS / EVIDENCE
1	Is there a Material Authenticity Assurance Plan or equivalent currently in place?				
2	Are procedures in place to ensure material is purchased only from approved sources?				
3	Are Supplier Agreements in place to include provisions that ensure product integrity & end-item traceability at all times?				
4	Do flow-down requirements require your suppliers to purchase material only from Authorized Sources?				
5	Are production and in-service failures investigated and monitored in accordance with established Corrective Action Procedures?				
6	Is nonconforming material adequately controlled to prevent re-entry into the supply chain in accordance with established procedures?				
7	Are procedures in place to notify customer if suspect, counterfeit or fraudulent material has been shipped?				
8	Are personnel trained concerning types and means of material counterfeiting and how to conduct effective product authentication and confirmation?

MATERIAL AUTHENTICITY ASSESSMENT

	MATERIAL AUTHENTICITY ASSURANCE	Y	Ν	NA	REFERENCE DOCUMENTS / EVIDENCE
9	Are Audits performed to demonstrate adherence to established material authenticity procedures?				

MATERIAL AUTHENTICITY ASSURANCE PLAN

A MATERIEL TRACABILITY AND CONTROL

All material shall be purchased from approved / authorized suppliers and shall require traceability to the Original Component Manufacturer / Original Equipment Manufacturer or material producer by means of a Certificate of Conformance or equivalent document for commercial items, or a Certificate of Conformance and Traceability for military QML/QPL items. Any such certification must originate from the OCM / OEM or material producer, or a distributor that is no more than one transaction removed from the OCM / OEM. When justification / approval is given authorizing purchases lacking this traceability, additional conformance verification / validation measures as described per <u>PRODUCT VERIFICATION PROCEDURE(S)</u> in conjunction with <u>SUSPECT</u>, <u>COUNTERFEIT, FRAUDULENT MATERIAL PREVENTION PLAN</u> shall be implemented.

2 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

B SOURCES OF SUPPLY

All production material shall be purchased from approved / authorized suppliers to the maximum extent possible. Planning to reduce the incidence of shortages shall be performed in accordance with best practices as defined per <u>AS6174</u> Supplier approval status shall be maintained in accordance with defined procedures. REF. <u>SELECT QUALIFY MONITOR SUPPLIERS & PURCHASE</u> <u>MATERIALS AND SERVICES PROCEDURE(S)</u>

SUPPLIER APPROVAL AND SOURCE SELECTION CONSIDERATIONS SHALL INCLUDE:

- a The buyer's historical experience with the source
- b Previously documented problems with the source from external sources
- c How long the source has been in business
- d The source's demonstrated adherence and/or certification to higher-level quality standards
- e The sources demonstrated adherence to applicable provisions of AS6174
- f The results of Audits performed per approved documented purchasing and product acceptance procedures and practices for verifying authenticity and conformance of material supplied

C APPROVED SUPPLIER LIST

Approved Suppliers shall be selected from Customer Qualified and/or Approved Source Lists, as applicable.

3 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

CASCADE GASKET & MANUFACTURING COMPANY INC.

D PROCUREMENT FROM AUTHORIZED SOURCES

Material shall be solely procured from Approved Suppliers, their Franchised Distributors and/or other Authorized Supplier. Material procured to specifications that list specific Qualified Sources of Supply shall be procured solely from that Authorized List, a Franchised Distributor of the source and/or approved / authorized resellers. Original Manufacturer / Supplier Agreements shall include provisions that ensure product integrity and traceability such as:

- a Original Manufacturer Warranty
- b Proper Handling, Storage and Shipping Procedures
- c Failure Analysis and Corrective Action Support
- d Certificate of Conformance
- e Acquisition Traceability

E PROCUREMENT FROM INDEPENDENT DISTRIBUTERS

In the case where purchasing directly from a legal authorized source, such as Original Manufacturers, their Authorized Distributers, or Authorized Suppliers are unavailable or not specified, Independent Distributors shall be used only after consideration of an alternate material source has been conducted. When Independent Distributors are used, risk mitigation shall be implemented to include:

4 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

CASCADE GASKET & MANUFACTURING COMPANY INC.

D PROCUREMENT FROM AUTHORIZED SOURCES

- a Process Qualification / Material Qualification
- b Validated Quality Check by competent Quality Inspectors
- c Certificate of Conformance

Material shall not be procured from Brokers or other non-authorized suppliers without prior, documented approval from Quality / Compliance Manager.

F SUB-TIER SUPPLIER FLOWDOWN OF PURCHASING REQUIREMENTS

Supplier flow-down shall be in accordance with methods outlined per <u>SUSPECT, COUNTERFEIT FRAUDULENT MATERIAL PREVENTION</u> <u>PROCEDURE HERE.</u> In addition, relevant requirements shall be flowed down directly through Quality Requirements, PO Terms and Conditions, Statements of Work, and/or indirectly through reference to this Plan / Declaration.

At minimum the following requirements shall apply;

- 1 As applicable, Supplier shall have a MATERIAL AUTHENTICITY ASSURANCE PLAN or equivalent procedure(s) in place
- 2 Supplier shall purchase material only from Authorized Sources, when specified by the Original Component / Material Manufacturer
- 3 Supplier shall maintain a list of Approved Sources

5 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

F SUB-TIER SUPPLIER FLOWDOWN OF PURCHASING REQUIREMENTS

- 4 Supplier shall provide certification wherever possible
- 5 Supplier shall provide evidence of authenticity (normally material composition or properties testing) absent relevant certification
- 6 Supplier shall have a process to control disposal of nonconforming or suspect material

G PURCHASING INFORMATION

Purchased material shall be specified on Purchase Orders and associated documentation to the extent necessary to maximize the

likelihood of procuring authentic and conforming material

H VERIFICATION OF PURCHASED PRODUCT

Purchased material shall be evaluated for compliance to all specified requirements in accordance with approved / established processes

I IN-PROCESS INVESTIGATION

Production failures caused by defective material shall be investigated for potential suspect, fraudulent and/or counterfeit activities.

Production and in-service failures shall be monitored and processed in accordance with established ROOT CAUSE CORRECTIVE

ACTION / RISK MANAGEMENT PROCEDURE(S)

6 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

NC MATERIEL CONTROL

Nonconforming or suspect material shall be controlled in accordance with <u>MANAGE NONCONFORMING PRODUCT AND MATERIALS</u> <u>PROCEDURE</u>. Scrap or surplus material shall be controlled and/or disposed in such a way as to prevent deficient and/or nonconforming material from re-entering the supply chain. Material identified as suspect, counterfeit or fraudulent shall be subject to reporting in accordance with established <u>SUSPECT COUNTERFEIT MATERIAL REPORTING POLICY / PROCEDURE / PROTOCOLS</u>

K REPORTING

Upon identification of suspect or confirmed counterfeit or fraudulent material, reporting shall be made to one or more of the following organizations, as applicable:

- 1 Department of Defense (DOD)
- 2 Department of Commerce (DOC)
- 3 Federal Aviation Administration (FAA)
- 4 NASA Office of Inspector General (NASA OIG)
- 5 Joint Deficiency Reporting System (JDRS)
- 6 Local Law Enforcement or other Authority Having Jurisdiction

7 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

L CUSTOMER NOTIFICATION

If identified suspect, counterfeit or fraudulent material has been provided to customer, the customer shall be notified per established <u>NOTICE OF ESCAPEMENT (NOE) PROCEDURE(S)</u>

M AUDITING

- a External Audits shall be performed to demonstrate supplier's Quality Management System incorporates adequate processes / procedures to assure purchase acceptance, use, and delivery of authentic and conforming material is performed prior to purchasing product, and periodically thereafter
- b Internal Audits shall be conducted annually to verify internal procedures are carried out in accordance with established <u>SUSPECT COUNTERFEIT FRAUDULENT MATERIAL PREVENTION PROCEDURE(S)</u>

Audit scope and frequency shall be commensurate with the assessed risk of the source. Audits may range from completion of a survey assessment of the source's processes and controls (procurement, quality, handling, test, etc.) to a full facility audit of these processes.

N TRAINING PERSONNEL

Material Authenticity Assurance Training, for all relevant personnel, shall be conducted per established <u>EMPLOYEE TRAINING</u> <u>PROCEDURE(S)</u> in accordance with <u>SUSPECT, COUNTERFEIT MATERIAL PREVENTION</u> policies.

8 40309C MATERIAL AUTHENTICITY ASSURANCE ASSESSMENT / PLAN

N TRAINING PERSONNEL

In addition to Supplier Management / Purchasing awareness; Quality Inspectors, Lab Technicians, Receiving Inspection and Materials Handling personnel are trained and qualified concerning types and means of material counterfeiting and how to conduct effective product authentication and confirmation.
